PROFILE SUMMARY

I'm a Frontend Developer skilled in HTML, CSS, JavaScript, and React. I'm passionate about building responsive, user-friendly web applications and always eager to learn and collaborate on innovative projects.

PROJECTS

Name: Nostrix Creative

[Live Link](#)

[Client Code](#)

Nostrix creative is a responsive digital agency offering web, design, and marketing services built with React, styled with Tailwind, and enhanced Framer Motion, EmailJS, and WhatsApp login for smooth, real-time user interaction.

Key Features:

- Built with React.js – Fast, dynamic, and component-based architecture.
- EmailJS Integration – Contact form with direct email functionality (no backend required).
- WhatsApp Login & Chat – Quick login and direct communication via WhatsApp.
- Admin Panel: Dedicated interface for administrators to manage the forum.

Name: DiscussHub

[Live Link](#)

[Client Code](#)

[Server Code](#)

Developed using the MERN stack (MongoDB, Express.js, React.js, Node.js) and Tailwind CSS.

Key Features:

- User Authentication: Secure login and registration system for users.
- Real-time Notifications: Instant updates for user interactions and activities.
- Post Voting: Upvote and downvote functionality for posts.
- Admin Panel: Dedicated interface for administrators to manage the forum.
- Mobile-Responsive Design: Optimized for seamless use across all devices.

Name: Service Review System

[Live Link](#)

[Client Code](#)

[Server Code](#)

A full-stack platform where users can log in, add services, and post reviews. Users can manage their reviews and explore feedback on their listed services.

Key Features:

- CRUD Operations: Users can create, read, update, and delete their reviews and services.
- Secure Database Interactions: Ensures data integrity and security.
- Service Management: Users can add and manage their listed services.
- Feedback Exploration: Users can view and explore feedback on their services.

SKILLS

- Proficient in HTML, CSS and JavaScript
- CSS-Frameworks : Tailwind CSS, Bootstrap-5
- Front-End Frameworks : **React JS, Next JS**
- Backend Technologies: **Node.js, Express.js, MongoDB**
- Key Skills: Problem Solving, Debugging, Responsive Design, Cross-Browser Compatibility, CORS (Cross-Origin Resource Sharing)
- Firebase Authentication
- Version Control : Git, GitHub
- Tools & Libraries: TanStack, Axios, @Shadcn
